

Your Complete Industrial Belting Partner

Bowman Hollis is much more than just another belting distributor—we solve problems! Our application and product **knowledge** means that we can recommend exactly the right belt for you. Our extensive **stock**, combined with an emphasis on fast, reliable **service**, means that you will have the perfect belt, when you need it. Reduced downtime plus long belt life means money in the bank for you.

Conveyor Belting

All European styles, in both monofilament and multifilament, and conventional US plied and interwoven constructions. We specialize in belts for food production, printing, paper converting, box manufacturing, textiles, packaging, and distribution centers. Premier Habasit distributor, also stock Nitta and Fabreeka.

Flat PT Belting

Full stock of Nitta nylon core belting. We also stock nylon core and polyester transmission belting from Habasit. Additionally, we stock leather, plied and rubber transmission belting. We specialize in belts for folder gluers and bindery applications, in addition to tangential textile belts.

Fabrication/Field Installations

With many years of combined experience, our belt shop can do any type of fabrication. In addition to factory-approved belt splicing, we offer V-guides and cleats, perforations, and other customized work. Our field crews can install any belt (to 118" wide) at your convenience.

Modular Belting

We offer the HabasitLINK modular belting range. Specific types available for red meat and poultry (with antimicrobial additive if desired), bakeries, vegetable packing, and packaging. Learn how these exciting new products can increase your sanitation levels, increase output, and reduce your costs.

Timing/V Belting

No longer will you have a hard time finding metric timing belts for your European machinery—Bowman Hollis offers a wide range of both neoprene and urethane belts. Additionally, we have a complete assortment of V-belts, Poly-V belts, and variable speed belts, all in metric or American Standard sizes.

High Temp Belting

In addition to flat wire belting, we offer both open mesh and solid high temperature synthetic materials. From screen printing dryer belts, to microwave cooking lines, to heat sealing machines, we can help. Our in-house splice capability ensures that belts are easy to install, but last a long time.

Two locations to serve you:
