

Bowman Hollis provides many other services to our textile industry customers. Among these are:

Adapters: Our complete woodworking shop gives us the capability to custom make adapters for any of your bobbins or spindles. Many times we can save a customer thousands of dollars by quickly making adapters, eliminating the need for more expensive bobbin purchases. Our knowledgeable people can tell you how this can help you.

Spare Parts: Do you have equipment from CMC/Rando, or Fiber Controls, and worry about what will happen if a part breaks? You don't have to worry—we stock many parts for this equipment. Our employees are very familiar with this equipment, and can help you determine exactly what you need.

Machine Shop: We have a fully-equipped metalworking shop, and can manufacture almost any type of part you need. Many times a customer has a key piece of equipment that is no longer in production, and when a part breaks we can make them a new one. Of course, our long experience with all types of textile equipment means that we can do this much better

Miscellaneous: Bowman Hollis provides many other specialty products to keep your mill running. We offer pneumatics, casters, slitter blades in several sizes, and fluted aluminum rolls in 2.75", 3.25", 4.5" and 6" diameters. A real specialty is our thermo-formed Lexan machine guards. If you need a new transparent guard, contact us for details.

Your One-Stop Source for Aprons, Belts, and More!

With over 50 years of experience, Bowman Hollis is the leader in manufacturing spiked and plain textile aprons. Additionally, we are your ideal supplier for power transmission and conveyor belts, hose, wire cylinders, fillet wire, and much, much more. Our base is firmly in the U.S. textile industry, and our knowledge can work for you!

Bowman Hollis Keeps Your Plant Running!

Bowman Hollis began as a textile apron manufacturer, and this is still at the heart of our business. We provide any type apron you need—plain, spiked, wood, aluminum or plastic slats, solid with slats inside—everything! Our construction is the most durable in the industry, with more and stronger rivets, so a Bowman Hollis apron will last much longer than cheaper alternatives. We stock many standard aprons, and can quickly make any special construction.

Fillet wire: Bowman Hollis has in stock a complete selection of fillet wire for all types of cards including Rieter, Marzoli, Truetzschler, and Crosrol. We stock this in either box or spool form, for immediate shipment. Don't want the headache of installing it yourself? Let us do it for you—we can quickly and precisely reclothe your rolls. In our primary market areas, we even offer free pickup and delivery!

Belting: We stock power transmission and conveyor belting from companies such as Gates, Habasit and Nitta. Our textile specialties include tangential belting, flat belts for cards and drawframes, and conveyor belts for package conveyors, link systems, and opening rooms. Additionally, we offer high temperature belts, either woven fiberglass or metallic. With belt shops and field installation crews in Charlotte and LaGrange, we offer quick service and reliable in-plant installations.

Beaters: We are truly your one-stop source for all your opening needs. Pin beaters, rotary doffers, beater lags in wood or aluminum, Bowman Hollis is your best partner. Most of the largest textile manufacturers depend on us to keep their lines up and running. If we don't have what you need, we can quickly manufacture it in our complete machine shop. Again, don't forget about our free pickup and delivery.

Flexible hose: We stock many types of ducting and conveying hose specifically for the textile industry. Whether your needs are for ducting or product transfer, chances are we stock a hose that can save you money. We have both reinforced and unsupported styles, and a good selection of metric sizes. Our application knowledge is unsurpassed, as is our service and delivery. Our clear hose is a big hit for product transfer, since you can see any foreign matter.

Wire cylinders: If you have cards, garnetts, or just about any type of fiber opening systems, you know how much trouble the wire cylinders can be. That's why Bowman Hollis specializes in this area. We have both new cylinders and reconditioned cylinders in stock. Chances are we have just what you need. We also reclothe wire cylinders. Ask us about our roll exchange program, where you always have a spare.

Comb Boxes. We are the only source for the original Duesberg comb boxes. These fit all existing cards, are oil-less, and are extremely heavy duty for the highest speed applications. Using these comb boxes you no longer have to worry about oil damage to fibers or fabrics, and save the expense of oil. We have new units, a full assortment of spare parts, and can even repair your old comb boxes.

Specialty belting: Bowman Hollis provides many types of specialty belting. Among these are polyester spiral woven, plastic modular belting and high temperature solid and open mesh synthetics. Additionally, we offer several types of flat metal belting—balanced weave, woven, galvanized and stainless steel. Of course, we also offer sprockets for all of these specialty items.
