YOUR COMPLETE BOX FOLDING & GLUING BELTING SOLUTION SUPPLIER

Today's folder/gluer machines run at very high speeds and with the abrasive nature of paperboard, a lot of stress can be put on the belts and the splices. Poor performing belts hurt your quality and efficiency.

Bowman Hollis' knowledge in this industry has allowed us to help box folding facilities maximize both quality and throughput by using past experience to recommend belts for certain applications and then providing those belts with superior, long lasting splicing. Bowman Hollis stocks belting from both Habasit and Nitta and can provide either fabricated belts or coils of material for in-house fabrication and installation by your personnel.

Bowman Hollis is the complete solution for your box folding equipment. From Folder Belts and Feeder Belts available with many cover options to a variety of timing belts in both metric and American standard pitches, it doesn't matter whether you are making set-up boxes, milk cartons or specialized containers, Bowman Hollis is your box folding partner.
